

```
## Loading required package: tikpics
## Loading required package: ggplot2
```

We can make a tikz plot

```
tikpics(carat, price, data = d)
```

```
x = rnorm(100)
y = rnorm(100)
z = rnorm(100)
tikpics(x, y, z)
```

```
# tikpics(x,carat,clarity,data=d,geom='scatter3d')
# tikpics(x,carat,clarity,data=d,geom='scatter3d',tour=TRUE)
```
